25X1X

On 27 June 1951, 36 Pe-2s were counted at Zwoelfaxing (P 49/X 48) airfield. There was no flying. No hard surface runway was seen at the field. Fuel or ammunition dumps are probably located in the southeastern corner of the field. \* An antenna system about 5 to 6 meters high was observed at the field. \*\*

25X1A

25X1A [REDACTED] Comment. The number of aircraft has not changed since May 1951. See [REDACTED] One regiment of the 1st Gds Bmr Div is still believed to be stationed at the field. The field has no runway. The installations in the southeastern corner of the field are underground fuel dumps which were put into operation again in December 1948 after being repaired.

25X1A

\*\* [REDACTED] Comment. According to a sketch, not forwarded, the installation is a Dumbo radar set. The pin-point location of the set was not reported.
